CUT FABRICS

Cut pieces in the following order.

The Circle Pattern is on *Pattern Sheet 2*.

To make a template of the pattern, trace onto a large sheet of folded paper, cut out on drawn lines, and unfold.

From animal print, use template to cut:

- 2 of Circle Pattern

From black print, cut:

- 2—4¼×39" strips

MATERIALS

1½ yards animal print
(pillow top and bottom)

½ yard black print
(pillow side, covered
buttons)

2¼ yards solid black lip
cording (½"-wide lip)

Polyester fiberfill

2—1½"-diameter buttons
to cover

Dollmaker's needle

FINISHED PILLOW:

24" diameter, 3¼" high

Quantities are for 44/45"-wide, 100% cotton fabrics. Measurements include ½" seam allowances. Sew with right sides together unless otherwise stated.

You won't have to beg your furry friend to take a seat on a plush pillow made just for him (or her).

DESIGNER ANNA GRIFFIN (ANNAGRIFFIN.COM)

PHOTOGRAPHER JASON DONNELLY

To get the look of upholstery piping, purchase cording with a 1/2"-wide lip.

FABRICS are from the Fifi and Fido collection for Anna Griffin Inc. (annagriffin.com).

ADD CORDING

- 1) Pin cording to one animal print circle, matching edge of lip with raw edge of circle. Clip cording lip to ease around curve of circle (Diagram 1).
- 2) Lap cording ends, pushing tails into seam allowance (Diagram 2).
- 3) Using a zipper foot, stitch close to cord to secure it and make pillow top (Diagram 3).

DIAGRAM 3

FEATURED FABRICS

Check your local quilt shop for these featured fabrics!

ASSEMBLE PILLOW

- 1) Layer black print $4\frac{1}{4}\times 39$ " strips with right sides together. Sew across each short end to make a loop. Press seams open.
- 2) Using sharp scissors, clip into seam allowances along long edges of black print loop, but do not cut into or beyond seam lines.
- 3) With raw edges aligned and right sides together, pin pillow top to one long edge of black print loop. Using a zipper foot, stitch just inside previous stitching line, as close to cord as possible (Diagram 4).

- 4) Repeat Step 3, joining remaining animal print circle to remaining edge of black print loop, leaving a 6" opening for turning (Diagram 5).
- 5) Turn right side out. Stuff firmly with fiberfill. Hand-sew opening closed.
- 6) Following manufacturer's instructions, use black print scraps to cover each button.
- 7) Thread dollmaker's needle with double length of thread; knot end. Stitch down through center of pillow; sew through button shank of first button and back through center of pillow. Sew through button shank of second button on opposite side of pillow. Repeat as needed, pulling thread tight to gather pillow at center. Tie off ends of thread to complete pillow.

DIAGRAM 5

How do I... make a covered button?

1. Trace circle template (included with two-part button, mold, and pusher in kit) on fabric; cut out.
2. Place fabric circle right side down in mold with top half of button form. Then tuck in fabric edges, place remaining half of button on top, and use blue pusher to snap pieces together.
3. Spritz covered button and air dry. The water mist causes the fabric to shrink slightly, giving the button cover a tight, professional look.

TIP: Avoid shiny show-through of button form by using a double layer of fabric or adding a layer of interfacing.
