Luxurious Cottons

ANNA GRIFFIN STYLE

*Martha Pullen Company Presents
a New Line of Cotton Prints by Anna Griffin*

*M*artha Pullen Company now carries the complete line of Anna Griffin's new collection fabrics. The popular stationery and gifts artist recently expanded her media to include fine, luxurious cottons in rich, vibrant hues and prints. Her south-of-the-border-inspired Carmen Collection includes bursts of lemon and lime citrus colors in an assortment of honeycomb, stripe and floral patterns. In Anna's Willow Collection, seventeenth-century French toile marries antique Chinese porcelain with classic bold monochromatic results. Our in-house artists are so enthralled with the fabrics; they're working up embroidery design collections to match. *The Carmen Collection* machine embroidery CD is available at our web store (store.marthapullen.com) and the Willow embroidery collection is in production and expected soon. Here are just a few of the ways you can use Anna Griffin's fabulous fabrics. Visit us at www.sewbeautifulmag.com for more inspiration. Select "In This Issue" and click on Anna Griffin.
