Anna Griffin To The Extreme

Larger-Than-Life Die Cut Designs Launch at National Stationery Show 2007

Anna Griffin, well known for her beautiful, oversized paper patterns, has done it again, but this time even bigger. The diva of design has created a larger-than-life, eye-catching collection of a dozen, imprintable invitation cards with the clever conception that bigger is indeed better. Signature Anna Griffin icons such as a nest, sunflower, pineapple, grapes and even a pudgy country pig have been appropriately titled, Extreme Die Cuts, due to their untraditional size, some almost eight inches tall. Delicately detailed antique, hand-colored engravings are elegantly washed with a palette of pastel watercolors. Hand-tied with a coordinating ribbon to a beautiful, 4"x6" decorative border invitation card they are simply stunning.

Fabulously fun and fit for any social occasion or celebration, the Anna Griffin Extreme Die Cut Collection is comprised of 12 extreme die cut designs with a suggested retail of \$22 per box of 10 imprintable border cards, ribbons and envelopes. Imprinting costs are additional at fine paper and stationery retailers.
